Created by mbrown@eanesisd.net

Summary:

Great for work. Great for school.

Popplet is a platform for your ideas.

Popplet's super simple interface allows you to move at the speed of your thoughts.

With Popplet you can capture your ideas, sort them visually, and collaborate with others in realtime. Quickly and easily!

popplet

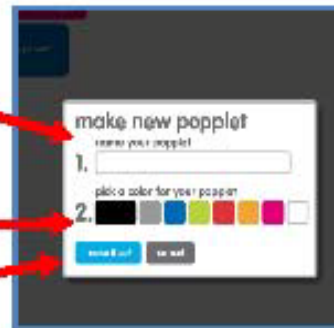

Touch Make a New Popplet

Type in a name for your popplet.

The color you select will be the background color of your work space.

Touch the blue "make it so" button.

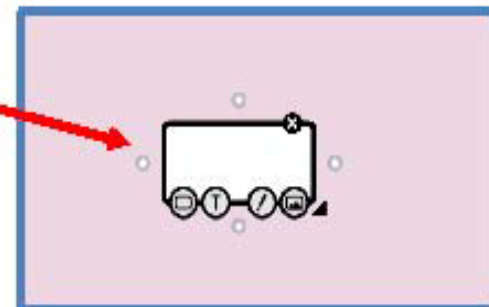

The name of your popplet is at the top.

The color of your background is shown here and can be changed by holding down the box.

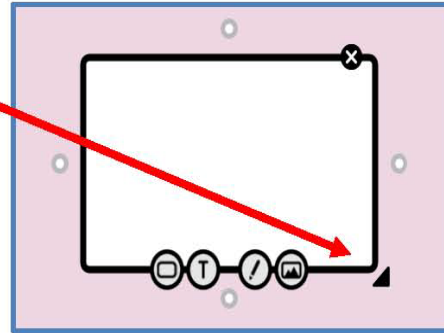

Your first popple is in the middle.

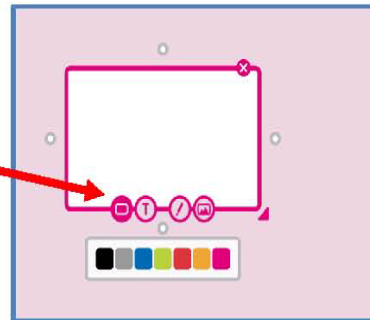

Touch the popple for editing features.

Drag the bottom right corner to resize the popple

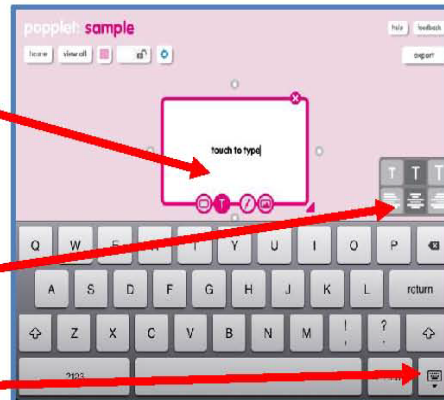

To select a popple color select the border color tool.

To type, touch the t.

Place the cursor where the text is to appear.

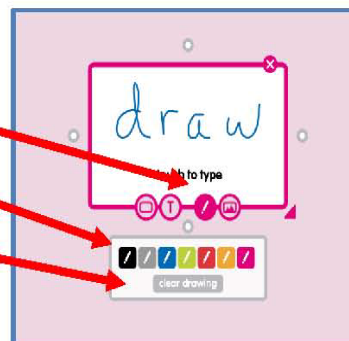

Align and resize text with the boxes above the keyboard.

Press the close keyboard button, or anywhere outside of the popplet to close the typing feature.

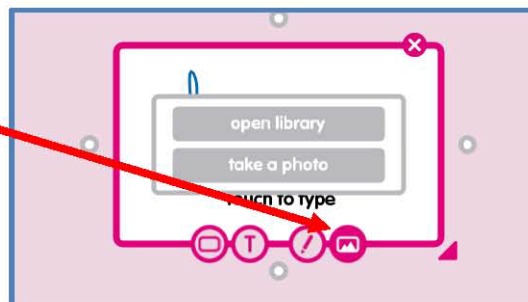

To draw, touch the pencil.

Choose a color, then draw in the popplet.

To erase, touch clear drawing

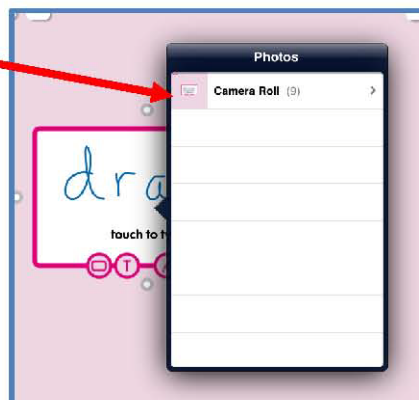

Bring photos in from the camera roll or take a photo for the popplet by touching the image square.

Touch the camera roll, then touch the photo.

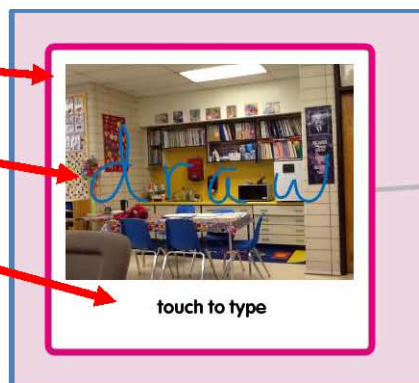

Rotate photo if needed, then press Done.

The photo will appear in the popplet.

Students can write or draw on the photo,

and type under it or above it.

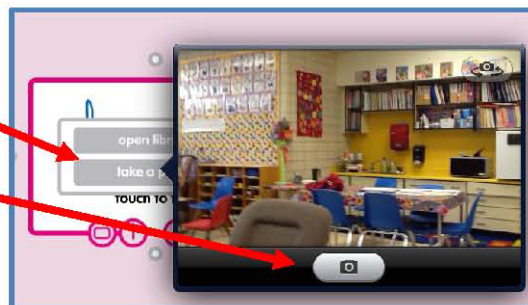

Touch "take a photo" for a live photo.

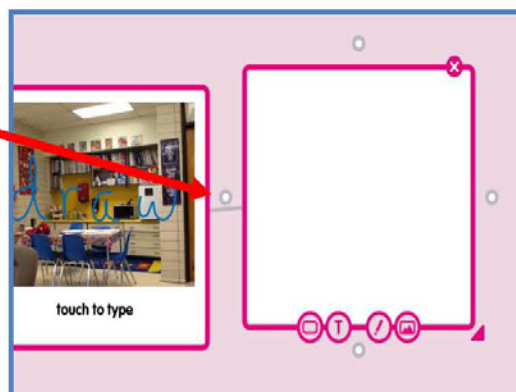

Touch the camera

Click Use

Click Done.

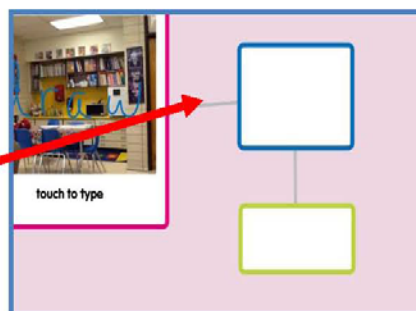

To add a new popplet, touch the grey dot on any side of the popplet.

Each popplet can be a different color.

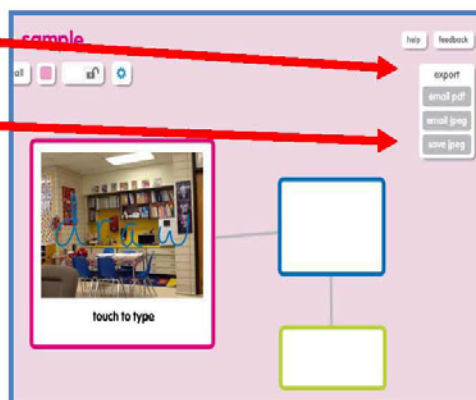

Once created they can all be moved around or reordered and they will be connected.

To delete a line, touch it, and touch the x on it.

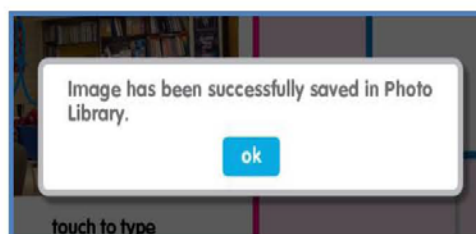

To share your popplet, touch the export button.

To save a jpg of your popplet, touch save jpg

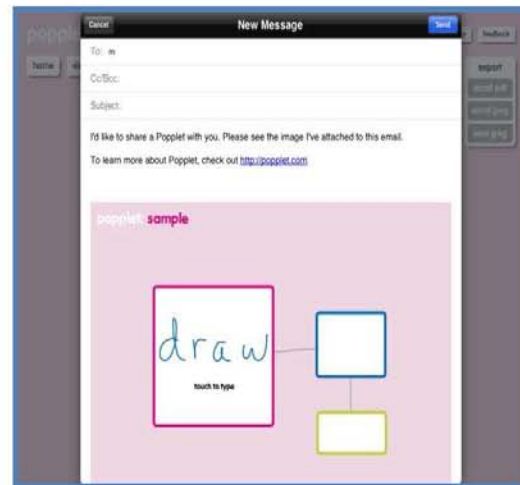

A message will appear showing that the image was saved to the photo library.

(Note: Popplet needs permission to access the photo library, so touch yes when the window pops up to ask this. It will only show once)

If you select email jpg or pdf, an email window will appear.

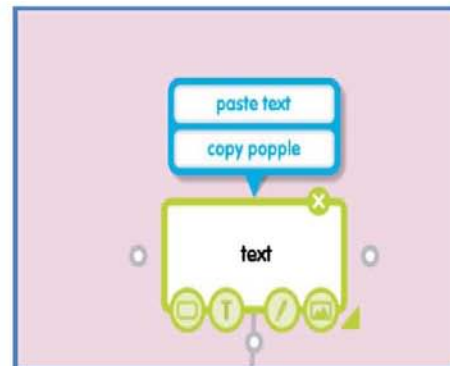

If Gmail has not been set up on a student iPad, nothing will appear if email jpg or pdf is selected.

The settings gear offers options for working with the popples.

Press and hold a popple for options.
You can also choose "paste URL", which is not shown here.
