

Planet earth

By Zoe Johnson

Our planet is blue

Like the sparkling blue ocean

Like my most favorite color

Like the blue recycle bin in my classroom

Our planet is green

Like the color of my eyes

Like my grandma's favorite color

Like the fresh green grass in my backyard

Our planet is wild

Like the wild dragons in myths

Like the wild horses that roam the valley's

Like the fierce male lions with gold manes

Our planet is scary

Like the scary tricks on Halloween

Like the darkest hour midnight

Like the scary commercials on tv for scary movies
