COST: Free app.

Product-Based

Rating: 4+

Web Version: No

Accounts: No

Reporting: Export recordings to the camera roll, via email,

Notes: You can record one scene at a time so that you have multiple settings. It is possible to re-record a page without affecting previous pages. This app is free and includes no ads or log-in.

Author: Holly Moore

SUMMARY:
Puppet Pals 2: School Edition is a storytelling app students can use to create narratives. Users select backgrounds, add actors/props/music, pose and move characters while recording voices, and even add their own camera-roll images. Once complete, users can save their video and share multiple ways (e.g., email, to Seesaw Learning, Showbie, Google Classroom, or even import into iMovie).

ELA: Students can create & share narrative, expository, persuasive, or descriptive writing. Combine writing elements (e.g., storyboarding, grammar, text elements) and oral language use to prepare and present the show!

Math: Students can import images of math concepts and use their puppets to explain the concept to a classmate or even a younger audience.

ADDITIONAL SUPPORT RESOURCES:

- Watch this **short video** tutorial on how to create a Puppet Pals 2 story.

- Find hints on how to use Puppet Pals 2: School Edition **here**.

Across The Classroom

Language Learners: Students can practice vocabulary and fluency in their second language or even compose dual-language presentations.

SEL: Review stories about friendship and then create a new friendship story. Share with another grade level!

Writing Support: Students can use storyboarding and voiceover to gather story ideas and then use this to support their text-based writing.
